Mask

This table lamp has the appearance of a mystical face. In Greek the term 'mask' means 'persona'. It is the façade one shows to the outside world, often to make a good impression. Putting up the 'right mask at the right time' is the secret of life. Putting this 'Mask' on one's table is to impress and strengthen a room. The base is made of solid American walnut and the lampshade is made of pure silk. The cord comes in a mat rubber jacket.
