## Mosaic

Mosaic is an ancient art of decorating. It also has a function.

Therefore, the use of mosaic is a cornerstone of our design principle.

This table contains 3000 hand carved black marble blocks of 10 x 10 millimeters.

Aluminum sheets support the marble. The top presents itself as new and ancient at the same time. Scratches do not change that.

And if by chance they appear, just simply remove them with sandpaper.
